### HI97700 · HI97715

# Ammonia LR and MR Portable Photometers

# • Advanced LED optical system

- Innovative optical design that utilizes a reference detector and focusing lens to eliminate errors from changes in the light source and from imperfections in the glass cuvette.
- LEDs have a much higher luminous efficiency, providing more light while using less power. They also produce little heat, which could otherwise affect electronic stability.

### CAL Check™

 Validate instrument performance at any time using CAL Check cuvettes made with NIST traceable standards. The CAL Check screen guides the user step-by-step through the validation process and user calibration.

### • On-screen tutorial mode with animations

- Guides users step-by-step through the measurement process
- Waterproof and floating IP67 case
- Unit of measure is displayed along with reading

### • Built-in timer

• Built-in reaction timer that ensures consistency between tests.

## • Error messages on display

 Alerts to problems including no cap, high zero, and standard too low

### GLP data

- · Displays the last calibration date.
- Auto logging
- · Battery status indicator
- · Auto-shut off
